

GS-B168H

ANALOG SINGLE

HIGH SIDE MANIFOLD

DESCRIPTION:

The GS-B168H is a single analog high side manifold and gauge. Designed with an outer protective shock proof body and gauge protector. It has a large range up to 700psi with an access to calibrate and a collapsible hook for hanging. An easy to operate ball valve compliments this manifold gauge design.

FEATURES:

- Shock proof design with gauge protector
- 0-700psi range
- Access to calibrate
- Ball Valve for easy open-close
- Collapsible hook built in
- R22, R410A, R404A, R407A
